ALLERGAN USA, INC. AND

Pursuant to Rules 36 of the Federal Rules of Civil Procedure and the Local Rules of the United States District Court for the Central District of California, Plaintiffs Allergan USA, Inc., and Allergan Industrie, SAS's ("Allergan" or "Plaintiffs"), hereby respond and object to the First Set of Requests for Admission (Numbers 1-11) ("Requests") propounded by Defendants Medicis Aesthetics, Inc., Medicis Pharmaceutical Corp., Valeant Pharmaceuticals North America LLC, Valeant Pharmaceuticals International, Valeant Pharmaceuticals International, Inc., and Galderma Laboratories, L.P. ("Defendants") as follows:

**RESERVATION OF RIGHTS**

Discovery is ongoing in this case. Allergan reserves its right to modify and/or supplement its responses as additional information is obtained. Allergan reserves the right to produce or use any information or documents that are discovered after service of these responses in support of or in opposition to any motion, in depositions, or at trial. Allergan also reserves the right to object to the use of these responses or the subject matter contained in them during any subsequent proceeding, including the trial of this or any other case. Allergan does not waive any objections on the grounds of privilege, relevance, authenticity, or admissibility.

**GENERAL OBJECTIONS**

1. Allergan objects to these Requests, including the Definitions and Instructions, to the extent they seek to impose obligations in addition to or different from those embodied in Rule 36 of the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the Central District of California, Judge Guilford's Standing Patent Rules, and any applicable Court Order. In responding to the Requests, Allergan will comply with the obligations imposed by the Federal Rules of Civil Procedure, the Local Rules of the United States District Court for the Central District of California, and any other applicable rule or court order.

2. Allergan objects to each Request to the extent it seeks information protected from disclosure by the attorney-client privilege, the attorney work product doctrine, and/or any other applicable privilege or immunity.

3. Allergan objects to these Requests to the extent they are overbroad, vague, ambiguous, unduly burdensome, duplicative, cumulative, unintelligible, or otherwise unclear as to the information sought. *James v. Maguire Correctional Facility*, 2012 WL 3939343, \*4 (N.D. Cal. 2012) (“Because admissions are designed to limit factual issues in a case, the requesting party bears the burden of setting forth its requests simply, directly, not vaguely or ambiguously, and in such a manner that they can be answered with a simple admit or deny without an explanation, and in certain instances, permit a qualification or explanation for purposes of clarification. To facilitate clear and succinct responses, the facts stated in the request must be singularly, specifically, and carefully detailed.”).

4. Allergan objects to each Request to the extent it seeks information that is not relevant to any claim or defense, or not reasonably calculated to lead to the discovery of admissible evidence. In particular, Allergan objects to each Request to the extent that it relates to products that are not at issue in this lawsuit.

5. Allergan objects to these Requests to the extent they call for a legal opinion or conclusion. Allergan’s responses should not be construed as admissions of any particular legal characterization made by these Requests.

6. Allergan object to each Request to the extent it is premature, including, without limitation, requests for Allergan’s legal contentions.

7. Allergan objects to these Requests to the extent they seek admissions regarding information that may be found in documents that have been produced by Allergan and/or Defendants in connection with this case.

1           8. Allergan objects to each Request to the extent it seeks information that  
2 is a matter of public record or that is otherwise equally available to or already in the  
3 possession of Defendants.

4           9. Allergan objects to each Request to the extent it calls for information  
5 not within Allergan's possession, custody, or control.

6           10. Allergan objects to each Request to the extent it seeks admissions for  
7 expert discovery prior to the time for completion of such discovery set forth in the  
8 Scheduling Order in this case.

9           11. Any failure to repeat all or any part of the general objections in any  
10 specific response shall not constitute a waiver or relinquishment of such objection.

11           12. Allergan expressly reserves each of these general objections. No  
12 response shall be deemed, and specifically is stated not to be, a waiver of these  
13 objections, which are applicable irrespective of whether specifically referred to in  
14 any specific response.

15                           **RESPONSES TO REQUESTS FOR ADMISSION**

16           Subject to the foregoing General Objections and Reservation of Rights, as
